Firstly, I would like to apologise for not posting a newsletter for the past few months – my plate is overflowing so I had to prioritise my responsibilities.

The first week of June is going to be FREEZING!!! Over these next few months, please make sure that your pets are warm, especially at night. If at all possible, let them sleep inside even if it is just inside the kitchen. If they cannot be inside, please make sure that their kennels are properly insulated and that they have enough blankets. If you put jerseys on your pets, please do not leave them on for days on end. Ideally you should take it off for 4 to 6 hours a day.

If you have pets older than 7 years of age, it would be a good thing to start supporting their joints, especially during winter – you can start them on a joint supplement like Arthrofocus, Cartlifocus, Nutradyl or Mobiflex. These supplements are added to your pet's food daily. If your pet is really battling to get up especially after lying down for a period of time or is crying during the night, then we will most likely need to put them onto anti-inflammatories to help keep them comfortable and happy during winter. If this is the case, then please make an appointment for one of our vets to see your pet.

After our President's speech at the end of May 2021, we have now moved back up to amended Level 2. It is very important that we keep ourselves as safe as possible. Please note that the following protocols are still in place when you enter the Practice:

- **You must wear a mask at all times**
- You must sanitise before entering the Practice
- Please wait outside if there are 3 other clients waiting in the waiting room/reception area already

If you have any concerns or questions, please do not hesitate to send us an email (harmelia.animalclinic@gmail.com) or contact us on (011) 974 5201.

PLEASE REMEMBER TO PHONE THE PRACTICE IF YOUR PET NEEDS HIS OR HER CHRONIC MEDICATION, BEFORE COLLECTING, SO THAT THEIR MEDICATION CAN BE COUNTED OUT BEFORE YOU ARRIVE AT THE PRACTICE.

Speak to one of our Receptionists and book your pet in as soon as possible. We do sterilisations from Monday to Friday, excluding Public Holidays.

Even though winter is here, it is still very important to keep your pets protected against external parasites (ticks/fleas/mites/flyes). This month we are also offering 10% off all our Tick and Flea Control products for this month so ensure that you protect your pets against these potentially life threatening external parasites. Speak to one of our Receptionists and get the product best suited for your pet and your pocket.
